MGMT2502 Intermediate Statistics**COURSE DESCRIPTION**

This course builds upon MGMT2501 Introduction to Statistics. Learners focus on the business applications of statistics and perform statistical data analysis techniques to make decisions and conclusions. Key concepts include two- sample confidence intervals and hypothesis testing, categorical data analysis, linear and multilinear regression, and quality control. Analysis of variance, design of experiment, chi-squared tests, time series analysis, and non- parametric tests are also examined.

REQUISITES	Complete the following courses: • MGMT2501 - Introduction to Statistics (3)
EQUIVALENTS	None
CREDITS	3
HOURS	45
ELIGIBLE FOR PLAR	Yes
ZERO TEXTBOOK COST	Yes

**COURSE LEARNING
OUTCOMES**

Bow Valley College is committed to ensuring our graduates can demonstrate their abilities in key areas that will make them effective citizens and encourage their development as lifelong learners. In addition to the discipline-specific skills that learners acquire in their programs, the College has identified ten learning outcomes.

College-Wide Outcomes:

1. Communication
2. Thinking Skills
3. Numeracy and Financial Literacy
4. Working with Others
5. Digital Literacy
6. Positive Attitudes and Behaviours
7. Continuous Learning
8. Health and Wellness Awareness
9. Citizenship and Intercultural Competence
10. Environmental Sustainability

#	COURSE LEARNING OUTCOME(S)	COLLEGE WIDE OUTCOMES SUPPORTED
1	Interpret the confidence interval for population means, proportions, and their differences	Thinking Skills (2), Numeracy and Financial Literacy (3)
2	Execute statistical hypothesis tests to compare two populations	Thinking Skills (2), Numeracy and Financial Literacy (3)
3	Apply statistical process control methods to maintain quality control	Thinking Skills (2), Numeracy and Financial Literacy (3)
4	Apply non-parametric tests in absence of Normality in the data	Thinking Skills (2), Numeracy and Financial Literacy (3)
5	Model the factors affecting the output of a process using the design of experiments	Thinking Skills (2), Numeracy and Financial Literacy (3)
6	Employ multilinear regression and correlation analysis to predict the association between variables	Thinking Skills (2), Numeracy and Financial Literacy (3)
7	Perform analysis of variance tests to analyze the differences among population means	Thinking Skills (2), Numeracy and Financial Literacy (3)
8	Apply data analysis tools on categorical data	Thinking Skills (2), Numeracy and Financial Literacy (3)
9	Use statistical software tools to perform complex calculations	Numeracy and Financial Literacy (3), Digital Literacy (5)

COURSE MODULES AND SCHEDULE

**Course schedule subject to change, depending on delivery mode and term of study. For exact dates, please consult the Course Offering Information in Brightspace.*

WEEK/HOURS MODULES

Week 1	Estimation with Confidence Intervals
Week 2	One Sample Tests of Hypotheses
Week 3	One Sample Tests of Hypotheses continued
Week 4	Inferences Based on Two Samples
Week 5	Design of Experiments and Analysis of Variance
Week 6	Categorical Data Analysis
Week 7	Single Linear Regression
Week 8	Single Linear Regression continued
Week 9	Reading Week
Week 10	Multiple Regression and Model Building
Week 11	Methods for Quality Improvement
Week 12	Time Series Data Analysis
Week 13	Nonparametric Statistics
Week 14	Integrated Case Study and Final Review
Week 15	Comprehensive Final Exam

ASSESSMENT

COURSE

LEARNING ASSESSMENT OUTCOME(S)

WEIGHT

1 – 9	Group Quizzes	10%
1 – 9	MyLab Statistics Online Homework	15%
1 – 4, and 9	Midterm(s)	20%
1 – 9	Case Study Assignment	15%
1 – 9	Comprehensive Final Exam	40%

Important: For details on each assignment and exam, please see the Course Offering Information.

PERFORMANCE STANDARDS

A minimum grade of D is required to pass this course. However, a program may require a higher grade in this course to progress in the program or to meet specific program completion requirements.

Please consult with the program area or contact the program chair for further details. A minimum Grade Point Average of 2.0 is required for graduation.

GRADING SCHEME

Grade	Percentage	Grade Point	Description
A+	95-100	4.0	Exceptional: superior knowledge of subject matter
A	90-94	4.0	Excellent: outstanding knowledge of subject matter
A-	85-89	3.67	
B+	80-84	3.33	
B	75-79	3.0	Very Good: knowledge of subject matter generally mastered
B-	70-74	2.67	
C+	67-69	2.33	
C	64-66	2.0	Satisfactory/Acceptable: knowledge of subject matter adequately mastered
C-	60-63	1.67	
D+	57-59	1.33	
D	50-56	1.0	Minimal Pass
F	Less than 50	0.0	Fail: an unsatisfactory performance

REQUIRED LEARNING RESOURCES

McClave, James T. , George Benson, P. & Sincich, T. *Statistics for Business and Economics (Student Value Edition)*, (13th ed.).

(PLUS MyLab Statistics with Pearson eText Access Card Package)

Pearson

Loose-Leaf Version:

ISBN: 97801347636

Additional learning resources may be found in the Course Offering Information or in Brightspace.

ADDITIONAL INFORMATION

Additional information may be found in the Course Offering Information or in Brightspace.

ACADEMIC ACCOMMODATIONS

Learners with a disability (learning, physical, and/or mental health) may qualify for academic and exam accommodations. For more information, or to apply for accommodations, learners should make an appointment with Accessibility Services in the Learner Success Services (LSS) Department. Accessibility Services can also assist learners who may be struggling with learning but do not have a formal diagnosis. To make an appointment visit LSS on the first floor of the south campus or call 403-410-1440. It is the learner's responsibility to contact Accessibility Services and request academic accommodations. For more information, please visit our website at <http://www.bowvalleycollege.ca/accessibility>.

INSTITUTIONAL POLICIES

Bow Valley College is committed to the highest standards of academic integrity and honesty. Learners are urged to become familiar with and uphold the following policies: Academic Integrity (500-1-7), Learner Code of Conduct, Procedures and Guidelines (500-1-1), Learner Appeals (500-1-12), Attendance (500-1-10), Grading (500-1-6), Academic Continuance and Graduation (500-1-5), and Electronic Communications (300-2-13). Audio or video recording of lectures, labs, seminars, or any other teaching and learning environment by learners is allowed only with consent of the instructor as part of an approved accommodation plan. Recorded material is to be used solely for personal study and is not being used or distributed without prior written consent from the instructor.

Turnitin:

Students may be required to submit their course work to Turnitin, a third-party service provider engaged by BVC. Turnitin identifies plagiarism by checking databases of electronic books and articles, archived webpages, and previously submitted student papers. Students acknowledge that any course work or essays submitted to Turnitin will be included as source documents in the Turnitin.com reference database, where it will be used solely to detect plagiarism. The terms that apply to a student's use of Turnitin are described on Turnitin.com.

Online Exam Proctoring:

Examinations for this course may require proctoring through an online proctoring service. Online

proctoring enables online exam taking within a controlled and monitored environment, thereby enhancing academic integrity. Online proctoring may occur through a variety of methods, including but not limited to:

- a. live online proctoring where a remote invigilator authenticates identity and observes completion of an exam using specialized software and recordings;
- b. automated proctoring where the exam session is recorded and AI (artificial intelligence) analyzed;
- c. browser lockdown that limits access to other applications, websites, copying, printing, screen capture and other functions; or
- d. a combination of both live/automated proctoring and browser lockdown.

Course instructors will review recordings, analyses, and data obtained through online proctoring for academic integrity infractions. It is the student's responsibility to meet the technical, software, location, and identity verification requirements necessary to enable online proctoring.

Further details of these policies are available in the Academic Calendar and on the Bow Valley College website, bowvalleycollege.ca.

Learners are encouraged to keep a copy of this course outline for future reference.

Collection of Personal Information:

This course, including your image and voice, may be recorded and made available to you and other students taking the course section. By attending the class(es) online or in person, you consent to the collection of your personal information. If you do not wish to be recorded, please contact your instructor before starting the course/class to discuss alternative arrangements.

You may use the recordings only for educational purposes and you must not copy, share, or use the recordings for any other purpose without the instructor's express permission.

Your personal information is collected in accordance with section 33(c) of the Freedom of Information and Protection of Privacy Act (Alberta) to deliver academic programming, support learner flexibility, promote universal design for learning principles, and for purposes consistent with the course activities and outcomes. If you have any questions about the collection, disclosure, use, or protection of this information, please contact the College's Access and Privacy Officer at foip@bowvalleycollege.ca.
